

**Description**

The AT-IWP is an Indicator Warning Plate used to provide a remote alarm signal from a TraceTek or AquiTron™ leak detection panel.

The AT-IWP incorporates a red LED indication when an alarm is present

Can be supplied with either a 230Vac or 24Vac LED, please specify when ordering.

**Additional parts required**

Single gang back box, recess or surface mount, min 50mm deep

**Versatile design**

The vertically brushed stainless facia of the AT-IWP can be easily mounted to a wall or other flat surface using a single gang socket box. Their small size makes it ideal for installation where space is at a premium, or where an unobtrusive appearance is desired.

**Applications**

Suitable for installation within reception areas, security rooms, porter lodges and locations where a remote signal is required.
